Pittsfield, Massachusetts

We are writing to express our gratitude and appreciation for the work done rebuilding the bridge over the Alford Brook in our town this past summer. This bridge is on the main access road from Great Barrington to Alford and is used by most of our residents coming and going from our town. We are all very pleased at the timely completion of the project and the minimal interference with traffic flow while the project was in progress. The finished product makes an esthetically pleasing entrance to our town, as well as restores access for heavier vehicles that need to come to Alford. Because of the deterioration of the previous bridge, the latter had been quite difficult in recent years.

We would especially like to acknowledge the efforts of the following men who worked on the project :

Hugo Pacheco, from MDOT,

Harold Bohl, Vern Palen, Glenn Houle, Neil and Jim Maxymillian , from Maxymillian Construction and the others who worked with them to bring this project to completion.

Thank you!

Sincerely,

Selectmen, Town of Alford

cc: Peter Niles, P.E. District Highway Director, MADOT
